ARTIFICIAL INTELLIGENCE STATEMENT

Lamar Institute of Technology (LIT) recognizes the recent advances in Artificial Intelligence (AI), such as ChatGPT, have changed the landscape of many career disciplines and will impact many students in and out of the classroom. To prepare students for their selected careers, LIT desires to guide students in the ethical use of these technologies and incorporate AI into classroom instruction and assignments appropriately. Appropriate use of these technologies is at the discretion of the instructor. Students are reminded that all submitted work must be their own

original work unless otherwise specified. Students should contact their instructor with any questions as to the acceptable use of AI/ChatGPT in their courses.

STARFISH

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.

ADDITIONAL COURSE POLICIES/INFORMATION

This course is conducted entirely online. There are no in-person class meetings, and students are expected to attend and engage remotely through Blackboard at least four times a week and check LIT email inbox at least four times a week.

Attendance is measured by active participation, which directly impacts your grade. Participation includes discussion posts and course analytics.

- Discussion posts require one original post responding to the prompt and two peer responses that add value to the discussion.
- Student activity within Blackboard will be monitored to ensure consistent engagement.
- This includes logging in, accessing course materials, submitting assignments, and interacting with peers.

Failure to participate in discussions or engage with course materials may result in a lower participation grade. Students are responsible for managing their time and staying current with all course requirements.

Any assignment not submitted by the stated due date will automatically receive a zero, regardless of whether late work is accepted. Students must refer to the instructor's late-work policy for details regarding eligibility, penalties, and deadlines for late submissions. If late work is accepted, the zero will remain until the assignment has been submitted and graded. It is the student's responsibility to regularly review their grades and notify the instructor if a zero remains after grading has occurred.

Timely submission of assignments is essential for academic success and fairness. As such, late work is not accepted under normal circumstances. In the event of an unavoidable situation, late work may only be considered when the following conditions are met:

- The student notifies the instructor within 24 hours of the incident.
- The student provides official documentation supporting the claim (e.g., medical note, legal notice, etc.).

Unavoidable circumstances may include the following:

- Serious illness or injury requiring medical attention
- Death or critical illness of an immediate family member
- Court appearances or legal obligations
- School-sponsored events with prior approval
- Severe weather or emergencies (e.g., mandatory evacuation, power outage, etc.)

Note: Work obligations, extracurricular activities, vacations, and general scheduling conflicts do not qualify as unavoidable circumstances. Additionally, the mid-term exam, peer review participation, research paper final draft, and final exam cannot be accepted as late work. Students are encouraged to plan ahead and communicate proactively to avoid conflicts
