

**LAMAR INSTITUTE
OF TECHNOLOGY**

Clinical I Radiologic Technology-RADR 1360-7A1

CREDIT

3 Semester Credit Hours (0 hours lecture, 18 contact hours)

MODE OF INSTRUCTION

Face to Face

PREREQUISITE/CO-REQUISITE:

RADR 1201 & 1203

COURSE DESCRIPTION

Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student.

COURSE OBJECTIVES/GOALS

This is an introductory course for the student entering the clinical facility for the first time. Students are introduced to the affiliate hospital systems with orientation of emergency, fire, safety, and infection control procedures. To familiarize the student with the areas within the radiology department, initial rotations may include the office, patient transport, image and quality control area, and radiographic rooms. Students are then assigned to the various diagnostic areas for longer periods of time for the remainder of the semester. Students complete rotations at multiple sites during the semester.

This course requires students to make standard radiographs under **direct supervision** of a qualified Radiologic Technologist. The course requires *18 hours/week* of clinical participation. A schedule for clinical rotations will be published on Blackboard at the start of each semester.

COURSE GOALS/OBJECTIVES

1. The student will demonstrate proper transportation of patients by wheelchair and stretcher.
2. The students will exhibit an understanding of the office procedures necessary to process and organize requested examinations.
3. The students will demonstrate knowledge of standard precautions when providing patient assistance and care.
4. The student will acquire the knowledge and skill necessary to process radiographs in the computed radiography reader and acquire the knowledge and skill necessary to perform basic operations of a digital radiography system.
5. The student will demonstrate the knowledge and communication skills necessary to obtain a complete patient history on a cooperative patient.
6. The student will exhibit an understanding of professional behavior and teamwork.

Under direct supervision:

7. The student will demonstrate decision making skills and show competency in the areas of:
 - a. patient identification with two patient identifiers
 - b. room care and preparation
 - c. selection of proper exposure factors with manual and automated exposure control
 - d. positioning of body parts
 - e. image receptor placement and identification
 - f. tube angulations and alignments
 - g. making an x-ray exposure on an image receptor
 - h. identification and selection of the correct patient on the worklist
 - i. time management
8. The student will demonstrate positioning skill, knowledge of protocols, exposure factors, radiation protection, and communication skills.
9. The student will be able to identify anatomy on a radiograph. This will be demonstrated as part of their task analysis and film critique lessons.
10. The student will work with a diverse population.
11. Written exams will be administered by the clinical instructor. These will include two (2) film critique assignments on Blackboard, one (1) syllabus quiz on Blackboard, and additional test(s) at the discretion of the clinical instructor. Students must check Trajecsyst weekly for clinical forms, updates, and notifications on the home screen. Students are responsible for all content and should consult a clinical instructor with any questions. Students are responsible for signing all documentation prior to Clinical Behavior Reports or by due date given. Trajecsyst documentation will be graded for a clinic test grade.
1. Students are required to do a time exception *instead of a clock out* in Trajecsyst if they leave clinic 10 or more minutes early. This includes recording the reason for leaving and the name of the person that allowed them to leave. When a student fails to complete the time exception properly three (3) times, this will result in 1 hour make up time to be made up according to the attendance policy.

COURSE OBJECTIVES

By the end of the semester the student will:

1. Successfully complete six (6) **Task Analyses**. The student will successfully complete two tasks from each of the categories listed below.
 - a. Chest (PA & Lat)

- b. Abdomen or KUB
- c. Upper and Lower Limbs

Part of the task analysis process is to monitor and correct their performance if repeat radiographs are required. These task analyses are at the discretion of the instructor, and they may choose the examinations you are to perform. **A student may be given the opportunity to repeat 1 task analysis during the semester under the following conditions**

- Repeating the task analysis will change the student's letter grade for the semester
 - Repeating the task analysis will not prohibit another student from completing the required Task Analysis.
2. Receive at least two (2) **Clinical Behavior Reports** to evaluate affective behaviors needed by professionals such as: integrity, time management, sociability, and responsibility.
 3. Demonstrate critical thinking, problem solving and cognitive skills on **written tests**. Students will have at least two (2) film critique assignments, a syllabus quiz assigned in Blackboard to ensure they have read the clinical syllabus, and other tests at the discretion of the clinical instructor.

INSTRUCTOR CONTACT INFORMATION

Instructor:	Sheryl A. Nance, Clinical Coordinator Multiple instructors assigned to clinical facilities
Email:	sanance@lit.edu
Office Phone:	409.247.5093
Office Location:	Multi-Purpose Center, Office 231
Office Hours:	Monday/Wednesday 10:15 am- Noon

REQUIRED TEXTBOOK AND MATERIALS

Each student is required to purchase a membership to Trajecsyst. This is a clinical documentation system used for record-keeping. Students must be registered and paid by the first day of the semester.

A computer with internet access is required. The computer must be able to run current programs and platforms such as Windows 10 and the internet connection must be reliable and robust. The course has online requirements. The computer must have a camera and microphone for online conferencing. Computers are available for student use in the Learning Lab in Eagle's Nest Room 101 and Mary and John Gray Library.

ATTENDANCE POLICY

1. For students in the radiology program to acquire the necessary clinical competency outlined in our curriculum, it is necessary that students complete all assigned clinical hours. Therefore, students missing **any** clinical hours will be required to make-up time missed at the end of the semester. Time will be made-up after the last scheduled clinic day or at the discretion of the clinical instructor. Students who do not complete makeup time before the grades are due for the semester, will receive an incomplete (I) in the clinical course.
2. Any absence while assigned to a specialty area or off-hour rotation will require the clinical instructor to adjust the clinical schedule to assure all students meet the accreditation guidelines. For example, a student missing a day when assigned to an evening shift will have one of the future clinical days changed to an evening shift. The schedule adjustments will be made by the clinical instructor at their discretion.
3. Students who have tardy time totaling at least one (1) hour will be required to make up all the missed time at the end of the semester. When a student is tardy he/she will not be allowed to make up the time that day. If a student leaves clinic early for any reason, it will be added to the total tardy time.
4. If a student is unable to arrive at clinic within one hour of their scheduled time they will not be allowed to attend clinic on that day.
5. Students who miss a total of two days (or 16 hours) in a semester **will receive a warning with the Disciplinary Action Form (DAF). When a third day is missed a DAF will be filled out and the Student's clinical grade will be lowered one full letter grade. Each subsequent absence may result in dropping of a letter grade pending a review by department committee.**
6. Students who exhibit excessive tardiness will receive a warning with the DAF. Further tardiness will result in disciplinary action which may include an attendance contract and/or lowering of the student's clinical grade.
7. Students who fail to follow proper call-in procedures when unable to attend clinic will have their clinic grade lowered one full letter grade for EACH day they fail to follow proper call-in procedure.
8. Extenuating circumstances will be reviewed.

DROP POLICY

If you wish to drop a course, you are responsible for initiating and completing the drop process by the specified drop date as listed on the [Academic Calendar](#). If you stop coming to class and fail to drop the course, you will earn an "F" in the course.

STUDENT EXPECTED TIME REQUIREMENT

For every hour in class (or unit of credit), students should expect to spend at least two to three hours per week studying and completing assignments. For a 3-credit-hour class, students should prepare to allocate approximately six to nine hours per week outside of class in a 16-week session OR approximately twelve to eighteen hours in an 8-week session. Online/Hybrid students should expect to spend at least as much time on this course as in the traditional, face-to-face class.

COURSE CALENDAR

DATE	TOPIC	READINGS (Due on this Date)	ASSIGNMENTS (Due on this Date)
Aug 25, 2026 through Dec 11, 2026	Students will x-ray hospital/clinic patients with direct and indirect supervision each day.		Monday/Wed/Fri 7am-3pm

COURSE EVALUATION

Final grades will be calculated according to the following criteria:

- 40% Task Analyses
- 40% Clinical Behavior Reports
- 20% Written Tests

GRADING SCALE

- 95-100 =A
- 87- 94 =B
- 80- 86 =C
- 70- 79 =D
- 69- below =F

LIT does not use +/- grading scales

Failure to successfully complete the required objectives will result in an "I" (Incomplete) in the clinical course. An incomplete must be removed by the next long semester or the (I) will be recorded as an (F) and the student will be required to repeat the clinical course.

*****a minimum of 80% is required for successful completion of this course*****

ACADEMIC DISHONESTY

Students found to be committing academic dishonesty (cheating, plagiarism, or collusion) may receive disciplinary action. Students need to familiarize themselves with the institution's

Academic Dishonesty Policy available in the Student Catalog & Handbook at <http://catalog.lit.edu/content.php?catoid=3&navoid=80#academic-dishonesty>.

TECHNICAL REQUIREMENTS

The latest technical requirements, including hardware, compatible browsers, operating systems, etc. can be online at <https://lit.edu/online-learning/online-learning-minimum-computer-requirements>. A functional broadband internet connection, such as DSL, cable, or WiFi is necessary to maximize the use of online technology and resources.

DISABILITIES STATEMENT

The Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973 are federal anti-discrimination statutes that provide comprehensive civil rights for persons with disabilities. LIT provides reasonable accommodations as defined in the Rehabilitation Act of 1973, Section 504 and the Americans with Disabilities Act of 1990, to students with a diagnosed disability. The Special Populations Office is located in the Eagles' Nest Room 129 and helps foster a supportive and inclusive educational environment by maintaining partnerships with faculty and staff, as well as promoting awareness among all members of the Lamar Institute of Technology community. If you believe you have a disability requiring an accommodation, please contact the Special Populations Coordinator at (409)-951-5708 or email specialpopulations@lit.edu. You may also visit the online resource at [Special Populations - Lamar Institute of Technology \(lit.edu\)](#).

STUDENT CODE OF CONDUCT STATEMENT

It is the responsibility of all registered Lamar Institute of Technology students to access, read, understand and abide by all published policies, regulations, and procedures listed in the *LIT Catalog and Student Handbook*. The *LIT Catalog and Student Handbook* may be accessed at www.lit.edu. Please note that the online version of the *LIT Catalog and Student Handbook* supersedes all other versions of the same document.

ARTIFICIAL INTELLIGENCE STATEMENT

Lamar Institute of Technology (LIT) recognizes the recent advances in Artificial Intelligence (AI), such as ChatGPT, have changed the landscape of many career disciplines and will impact many students in and out of the classroom. To prepare students for their selected careers, LIT desires to guide students in the ethical use of these technologies and incorporate AI into classroom instruction and assignments appropriately. Appropriate use of these technologies is at the discretion of the instructor. Students are reminded that all submitted work must be their own original work unless otherwise specified. Students should contact their instructor with any questions as to the acceptable use of AI / ChatGPT in their courses.

STARFISH

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.

ADDITIONAL COURSE POLICIES/INFORMATION

CLINIC POLICIES

1. Dosimeters must be worn at all times.
2. Identification badges must be worn at all times with name CLEARLY visible.
3. Beepers, cell phones, laptops, and any other electronic devices are NOT allowed in clinic.
4. Students will abide by ALL handbook policies.
5. Student's failure to abide by handbook policies may result in the clinical grade being **lowered one full letter** for each occurrence.

There will be grade and monetary consequences if a student loses their dosimeter. Each dosimeter is a three-month record of their occupational radiation dose. A lost badge removes three months of the lifetime occupational exposure from their record. It is lost and cannot be replaced. If a student loses their dosimeter the following will occur:

- The student will report the lost dosimeter to Brenda Barrow and their clinical instructor.
- The student will pay \$35 to the program to cover the cost of ordering a new dosimeter. The student will have point deductions on the next Clinical Behavior Report to emphasize the importance of the dosimeter. The student will receive a "Poor" in the Professional Appearance category due to the dosimeter being a part of the uniform of a student radiographer. The student will receive a "Poor" in the Quality of Work category which emphasizes professional standards including radiation protection. The clinical instructor will report the loss by documenting on the Disciplinary Action Form.

BLACKBOARD

This course is Web Enhanced. All students will be required to login to **BLACKBOARD once a week on Tuesday**, to check e-mail and complete assignments. Assignments will be posted throughout the semester. It is your responsibility to meet the deadlines. **Students should access**

Blackboard on a computer and not a cell phone. Not all information will display correctly in the Blackboard app or on the cell phone browser. Issues caused by using a cell phone for access will be the responsibility of the student. For example, if you take a quiz, and it does not work properly, the quiz will not be reset. You will receive the grade assigned. Late work will not be accepted. If you are unable to meet a deadline in this course, send an e-mail and we will discuss your options.
