COURSE DESCRIPTION

The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

COURSE OBJECTIVES

Upon completion of this course, the student will be able to

- Compare and contrast the basic theoretical perspectives of sociology.
- Identify the various methodological approaches to the collection and analysis of data in sociology.
- Describe key concepts in sociology.
- Describe the empirical findings of various subfields of sociology.
- Explain the complex links between individual experiences and broader institutional forces.

CORE OBJECTIVES MEASURED

- Critical Thinking: To include creative thinking, innovation, inquiry and analysis, evaluation, and synthesis of information.
- Communication: To include the effective development, interpretation, and expression of ideas through written, oral, and visual communication.
- Social Responsibility: To include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

TECHNICAL REQUIREMENTS

For the latest technical requirements, including hardware, compatible browsers, operating systems, etc., review the Minimum Computer and Equipment Requirements on the [LIT Online Experience](#) page. A functional broadband internet connection, such as DSL, cable, or WiFi is necessary to maximize the use of online technology and resources.

DISABILITIES STATEMENT

The Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973 are federal anti-discrimination statutes that provide comprehensive civil rights for persons with

disabilities. LIT provides reasonable accommodations as defined in the Rehabilitation Act of 1973, Section 504 and the Americans with Disabilities Act of 1990, to students with a diagnosed disability. The Special Populations Office is located in the Eagles' Nest Room 129 and helps foster a supportive and inclusive educational environment by maintaining partnerships with faculty and staff, as well as promoting awareness among all members of the Lamar Institute of Technology community. If you believe you have a disability requiring an accommodation, please contact the Special Populations Coordinator at (409)-951-5708 or email specialpopulations@lit.edu. You may also visit the online resource at [Special Populations - Lamar Institute of Technology \(lit.edu\)](#).

STUDENT CODE OF CONDUCT STATEMENT

It is the responsibility of all registered Lamar Institute of Technology students to access, read, understand and abide by all published policies, regulations, and procedures listed in the *LIT Catalog and Student Handbook*. The *LIT Catalog and Student Handbook* may be accessed at www.lit.edu. Please note that the online version of the *LIT Catalog and Student Handbook* supersedes all other versions of the same document.

ARTIFICIAL INTELLIGENCE STATEMENT

Lamar Institute of Technology (LIT) recognizes the recent advances in Artificial Intelligence (AI), such as ChatGPT, have changed the landscape of many career disciplines and will impact many students in and out of the classroom. To prepare students for their selected careers, LIT desires to guide students in the ethical use of these technologies and incorporate AI into classroom instruction and assignments appropriately. Appropriate use of these technologies is at the discretion of the instructor. Students are reminded that all submitted work must be their own original work unless otherwise specified. Students should contact their instructor with any questions as to the acceptable use of AI/ChatGPT in their courses.

STARFISH

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.

ADDITIONAL COURSE POLICIES/INFORMATION

Communicating with your instructor: All communication with Professor Montemayor must be via the student's LIT email as this is an online course. Virtual meetings are also an option when students want to speak "live" with the course professor. These will occur via LIT approved

software, evenings. Students have the option to leave a message at the number listed on the syllabus – please do this sparingly as this is not the instructor's office phone. Due to FERPA restrictions, faculty cannot share any information about performance in the class through other electronic means.

Monday – Friday noon: students can expect a response to email communication generally within 24 hours and emails sent Friday after noon, Saturday, Sunday: students can expect a response within 48 hours. During the week, responses to student emails will occur in the evenings after 6:30pm. If the LIT is closed for a holiday or other official purposes, email communication will commence when LIT officially reopens. Please send one email when communicating with the course professor and allow the indicated amount of time before sending another. It is okay to send another email if one does not receive a response within 24-48 hours – sometimes emails are delayed, end up in the wrong endbox, or just do not get sent. Once an email is read, the course professor will promptly reply. Be sure to include the course in which one is enrolled, the course number and section number. Example: SOCI 1301.XXX (list the letter/number combination that follows). This number is listed in Blackboard when the student accesses the course.

Evaluation of coursework: This course offers the busy student flexibility as unit coursework is released and available for completion each week. Two types of feedback are offered upon completion of assessments.

- **Automatic feedback:** Quizzes and exams are set for automatic evaluation and posting of points earned to Blackboard.
- **Manual feedback:** Any written assessment such as discussions or fill-in-the blank assessments or quizzes with short answer or written assignments are graded manually by the course professor. *Allow a minimum of 5-7 days* for these assessments to be evaluated and points posted to Blackboard. Assessments that require manual feedback are not evaluated until after the deadline so that all students have an equitable opportunity to complete required coursework. Late submissions: coursework, that has been approved to be submitted late, will not be graded immediately. The acceptance of late work is a courtesy and it will be evaluated and graded with other coursework during the next weekly grading period. There is no instant grading for manually graded assessments.

Late work: Generally, coursework is not accepted late. In the case of an unforeseen life/work event, each student has access to a one-time "late pass" which allows the student to submit coursework or major assignment late – up to 3 days (but no more). This is one-time late pass offered one time to each student in this course. It is available for all coursework except Unit 4 coursework, Exam 4 or the Make-up Comprehensive Final or the Paper. Before the deadline, the student must send a request to the course professor, via email, to request use of their one-time "late pass." Requests made after the deadline will not be approved. Weekly participation is necessary to succeed in this course – as in any academic course. Submitting coursework late may prevent one from successfully reaching their goal.

Use of AI (Artificial Intelligence): Students are allowed to use advanced automated tools (artificial intelligence such as CoPilot, ChatGPT or Dall-E 2, etc.) on assignments in this course **only if permission is first obtained from the course professor (and properly cited)**. Do not turn to AI to write responses for SOCI coursework. Unless given permission to use AI tools, each student is expected to complete each assignment without substantive assistance from others, including automated tools.

ASSESSMENT EXPLANATION

(1) Quizzes. Required.

***Syllabus Quiz:** Assesses one's understanding of course requirements. Read Syllabus with Course Calendar. Can use these documents while taking the quiz. The student has unlimited attempts.

***APA Quiz:** Assess student's understanding of APA format. APA is the required format for all written submissions – discussions and Social Problems Project assignments. Unlimited attempts

***Video/Article Quizzes:** Assess the student's comprehension and understanding of information presented via video, article, other reading connected to an assigned chapter. Students have two attempts!

***Chapter Quizzes.** Assess a student's comprehension and understanding of information presented in each chapter – textbook, written summaries. Students should review course material/textbook prior to attempting and completing each quiz. Two attempts only. Highest score posted to Blackboard.

(2)Weekly Check In/Attendance Quizzes. Required. Assesses a student's understanding of weekly tasks as well as course requirements. Purpose: remind students of course set-up and requirements; and used to take attendance each week. Only this assessment is used for attendance purposes. Released on Mondays. Must be completed by end of day on Wednesday of each week. Not accepted late, no extensions.

(4)Unit Exams. Required

Four (4) timed, online exams over course material. Each is worth 75 points. Multiple Choice and True/False questions. This assessment is completed via Blackboard. It serves to assess a student's comprehension and understanding of information chapter – textbook, written summaries. Students should review course material/textbook prior to attempting and completing each exam. One attempt only.

Makeup Comprehensive Exam. This exam takes the place of one missed exam. If a student misses Exam 1 or Exam 2, or Exam 3, the student may take a *makeup exam which will be* offered during the last week of the course only. The student who wishes to take the Makeup Comprehensive Exam must request the access code to the Comprehensive Exam during **Week 7**. The student must email the course professor from the student's COM student email account. The course professor will not remind the student of this makeup opportunity. It is the student's responsibility to request the access code to the makeup comprehensive exam. *Requests will not be approved during the last week of the term.*

The comprehensive exam is ONLY for students who miss an exam. Do not request to take the makeup exam if one did not miss Exam 1, 2, or 3. There is no makeup exam for Exam 4. It is the student's responsibility to confirm that their work was submitted to Blackboard. If you do not see a grade/score for an exam in the Blackboard Gradebook, then it was not attempted or submitted

Quizzes/Exams. Scores are automatically posted upon successful completion. Students must complete and submit quizzes to earn points. If a score is not viewable for a quiz in the Blackboard Gradebook, then it was not attempted or submitted. Take each quiz/exam before Course Calendar deadline – always double check the Blackboard gradebook. Contact LIT Tech Support at 409-839-2074 or at HelpDesk@LIT.edu. Or Contact LIT Blackboard Support at 936-294-4395 or at lit-bbsupport@lit.edu.

(3)Discussions. Required.

1 Orientation/Introduction Discussion

3 Practicing Sociology Discussions

Answer questions and make connections to course material while discussing “real events” or individual experiences. Discussions will occur over current and historical events as well as individual and collective application. Submit to Blackboard only. Will not be accepted if not submitted to Blackboard (do not email)

To earn points, the student must follow the instructions listed in Blackboard for each discussion. The student is required to write in complete sentences, use correct spelling, grammar, and

punctuation. This is a formal writing assignment that offers students the opportunity to 1)practice their writing skills, 2)practice using sociological terms and concepts, 3)practice using direct quotes, and 4)practice following the correct APA format. The student must use the assigned textbook and/or written summaries, unless instructions direct the student to a different source. **The contributing writers/authors are Conerly, Holmes, and Tamang not OpenStax.** Citing the authors correctly is required in this course for all written submissions. OpenStax is NOT the author of this textbook. Do not list OpenStax as the author for written submissions. Students must cite the sources correctly – do not reword definitions / put in your own words. Do not paraphrase. Use direct quotes only and cite your source by following APA format

Students have two ways to access and cite the textbook. Must use one of these options. If not, will not earn more than 5 points on for this assessment.

1. Access the course textbook by using the link offered in Blackboard – this is an **electronic source without page numbers**. Review this [LINK](#) (Purdue OWL) and follow this citation format. Scroll to bottom of page for information
 - a. Example: "Culture refers to the group's shared practices, values, and beliefs" (Conerly et al, 2026, *Ch1.1 What are Society and Culture*, para. 3).
2. Access it by downloading the textbook to your laptop or desktop. Using a PDF is a traditional way of reading a book as it has page numbers. Review this [LINK](#) (Purdue OWL) and follow this citation format.
 - a. Example: "Culture refers to the group's shared practices, values, and beliefs" (Conerly et al, 2026, p. 1).

If you do not understand how to use/follow either of the examples as "your template" for APA format. Contact the LIT Tutoring/Writing Center where trained professionals are available to assist students with APA formatting requirements. Be sure to show them these examples so they know what this course professor is requiring. Discussions include:

- **Response 1-Required:** Reply to all questions asked by course professor. Incorporate required term(s) and definitions in one's post. Do so by following the correct APA format. 100 word minimum; no max. Quotes from sources do not count towards word count.
- **Response 2-Required:** Respond to a post made by a classmate. 50-word minimum; no max. Begin response with classmate's name. Do not write the words "good job or similar language." The goal is to simulate conversation that would take place in the classroom.

The Discussion Assignment Evaluation Rubric will be used to score this assessment. Review prior to writing and submitting responses.

Discussion Evaluation Rubric:

- **0 Points.** Did not complete the assignment
- **10 points.** Did not reply to a classmate. Must do so to complete the assignment
- **18-20 points: (Below Average response-D). Poorly written.** No direct quotes in response. OR did not cite using one of the two APA formatting options OR listed OpenStax as the source rather than the textbook authors
- **21-23 points: (Average response-C): Adequately written.** Met minimum word count. Followed APA format – grammar, punctuation rules. Weak connection to the course material. Used at least one of the required terms and its definition in response. Review this [LINK](#) (Purdue OWL) when citing electronic sources without page numbers. Review this [LINK](#) (Purdue OWL) when citing a book with page numbers if textbook was downloaded as a PDF.
- **24-26 points (Above average response-B) Well written.** Met minimum word count. Followed APA format – grammar, punctuation rules. Strong connection to the course material. Used all required terms and definitions in response. Review this [LINK](#) (Purdue OWL) when citing electronic sources without page numbers. Review this [LINK](#) (Purdue OWL) when citing a book with page numbers if textbook was downloaded as a PDF.
- **27-30 points (Excellent response-A): Excellent response.** Exceeded word count requirements. Incorporated more than the required number of terms and definitions. Followed APA format – grammar, punctuation rules. Extremely strong connection to course material. Review this [LINK](#) (Purdue OWL) when citing electronic sources without page numbers. Review this [LINK](#) (Purdue OWL) when citing a book with page numbers if textbook was downloaded as a PDF to an e-device.

(4). Research Paper: Multiple parts

- **Required.** This assessment offers the student the opportunity to utilize a beginner’s mind and sociological imagination, discuss and apply sociological theory, as well as make sociological connections to individual experiences.
- **Info Assignment.** The purpose of the Info Assignment is to encourage the student to complete “prep” work prior to attempting to write the paper. Preparing one’s notes, engaging in information collecting is the ideal way to prepare oneself when writing a paper. Students will use this information when writing their paper.
- **Applying Sociological Theory and References Assignment.** Practice using and applying sociological theory to prepare to write the paper. Research sources and create a reference page for research paper. Students must submit the sources they will cite in their paper. APA format
- **Paper:** The student will offer a sociological discussion using information presented in the course, outside sources and do so following APA format. The student will use information from the Info Assignment, Sociological Theory References Assignment. If they do not, they will fail this assessment. The research paper is a 2-3 page paper following APA format-

typed, double spaced, Times New Roman, 12-font, with at least 4 in-text citations from 4 indicated sources

Detailed Course Calendar begins on next page:

Course Calendar/12-Week Course

- Textbook: Introduction to Sociology, 3rd edition, Conerly et al. Students have free access to the textbook via this link: <https://openstax.org/details/books/introduction-sociology-3e/>
